Today we're going to take a look at "New Fabric Release Navaho"

Hi there, I'm Jason from the company Blockout Blinds.

Today, I'm really excited to announce that we're releasing another exclusive fabric range to our Blockout Blinds collection. We're proud to announce a new range called Navaho.

Navaho Explained

Navaho is a screen fabric used for internal blinds. We've come up with a range of six colors as you can see here. Navaho fabric has a really nice texture to it and differentiates itself from the everyday screens that we're seeing these days with just a very square weave. We think that these will add a beautiful touch to your home. There's not really anything out there like this at the moment which is why we're really excited to announce the release of this to all our potential clients out there. One important thing is that this fabric comes in a 3m width which means we can do quite wide windows.

BLOCKOUTBLINDS
blinds - screens - awnings - plantation shutters

- ✓ Comes in a 3 metre width
- ✓ Comes in a range of 6 colours
- ✓ Heavy duty and easy to maintain

Easy to Maintain

It doesn't have any harmful chemicals. It's easy to clean. You simply wipe it with a cloth with soap and water. It's heavy duty. It will last a long time. It looks beautiful and we're really excited to release it out there to you guys now. So if you're interested with this fabric, give us a call and one of our guys will see you and show you a sample right there in your home and office. Thanks again!

We hope you've enjoyed this news and tips update from Blockout Blinds, we'd love for you to leave a comment about "New Fabric Release Navaho".
